DIVERSITY AND INCLUSION SHOWCASE BOOK
Dear Notre Dame students,

Diversity, equity, and inclusion. You will hear these three words often in the recruitment process, but what do they truly mean after you are hired? Moreover, how do employers create and foster inclusive environments that promote equity and advance diversity?

The vision of the Meruelo Family Center for Career Development is to empower you to discern, discover, and pursue meaningful careers to be a force for good in the world. Being a force for good starts with respecting the human dignity of others. A principle of Catholic social teaching, respecting human dignity is also a fundamental principle of diversity in the workplace.

Our staff has explored the question, “How can we help our students learn about world-class employers and their efforts to create workplaces that respect the human dignity of every employee and to advance a culture of inclusion?” Our hope is this booklet, along with other initiatives to help connect you with employers, will help you find employers who are committed to being a force for good in the world, too.

I encourage you to use this resource as you discern your career path. Explore employers that align with your expectations for diversity and inclusion. Familiarize yourself with new employers, and find employers who are committed to issues that are meaningful to you.

This booklet will be updated on a regular basis throughout the academic year as more employers recognize the value of sharing their diversity and inclusion efforts with you.

I wish you all the best on your career development journey. And, don’t forget, we are here for you.

Sincerely in Notre Dame,

Ryan Willerton

Diversity & Inclusion Philosophy/ Statement
At 84.51°, we believe a diverse and inclusive work environment is essential to the work we do as a data science company. Just as no two Kroger customers are alike, no two 84.51° associates are alike. While we are watching the numbers, we know we are making progress because of how many associates are engaged in our mission to be more diverse and engaged. Beyond our leadership team being committed – we have seen our organic efforts around D&I blossom since starting our journey. People-led teams focused on D&I have formed – such as Women’s EDGE (including sub-committees, Women of Color and Women in Tech), MARC (Men Advocating Real Change), and ITOPIA (support introverts). These groups provide our associates with the space and freedom to grow themselves and others at 84.51°. We’ve made progress, but our journey is just getting started. In the years to come, we will continue to drive action and accountability from raising awareness to changes in behavior that foster and sustain an inclusive workplace. We will continue to educate and elevate conversations of unconscious bias and cultural competence.

Organization Description
ACE responds to a call to prepare highly committed teachers to serve in underserved Catholic schools across the nation. Their commitment, imagination, and zeal help strengthen Catholic schools and empower the children entrusted to their care.

Diversity & Inclusion Philosophy/ Statement
ACE exists to serve the mission of Catholic schools to provide an excellent education for ALL children. We are committed to growing as a community that welcomes and celebrates diversity in every sense of the term. Diversity Programming & Initiatives
ACE is founded on three pillars: forming professional educators, building community, and growing spiritually. We seek to integrate these pillars in as many aspects of formation as possible, including our diversity & inclusion efforts. Practices of cultural responsiveness and sustenance, for example, are integrated into the M.Ed. coursework. Teachers’ first summer includes a workshop on Christocentric Cultural Responsiveness to begin reflecting on the role of personal identity within community. Additionally, there are multiple opportunities to extend those reflections as teachers learn about the communities and individuals they serve. Such opportunities include, but are not limited to, implicit bias training, book studies, workshops, and discussion groups on topics such as building an antiracist ontology. Teachers are encouraged to communicate with staff regarding other opportunities they desire. Much of the content of these formation experiences is shaped by this ongoing dialogue, and we look forward to our continual growth together.

Diversity is a kaleidoscope of race, orientation, values, and experiences that create a common thread of acceptance and celebration through education and collaboration. Overcoming Diversity Fatigue: Diversity fatigue can best be described as feelings of exhaustion with diversity and inclusion issues. Given the increased attention on diversity issues, one of the negative outcome may be that people have grown weary and tired of talking about diversity. Our primary goal is overcome this by providing: Opportunity, Insight, Celebration, Equity.

Organization Description

InterAction is a convener, thought leader, and voice for NGOs working to eliminate extreme poverty, strengthen human rights and citizen participation, safeguard a sustainable planet, promote peace, and ensure dignity for all people. Our Members are premier international global development, humanitarian, and sector supporting organizations that work in almost every country and manage more than $15 billion in programs worldwide.

Diversity & Inclusion Philosophy/ Statement

Guided by the principle of Do No Harm, InterAction strives to model the ethics it values as a mission-driven thought leader and standard-bearer to better integrate and promote a Diversity, Equity, and Inclusion (DEI) approach within the NGO sector.

Across the international development and humanitarian sectors, a consensus is growing that organizations must use an intersectional framework to challenge persistent inequalities and work in ways that are anti-racist and not based on colonial models of engagement. NGOs are now rightfully expected to understand that race, gender, sexual orientation, disability, religion, age, and class are each vast and complex identities that intersect across categories, cultures, and regions. InterAction’s DEI approach moves its Members toward an intersectional framework that will lead to broad organizational changes related to localization, staffing, compensation, and representation, among others.

While global considerations are critically important to the framing of our work, InterAction’s DEI approach is also specific to the U.S. context in which our coalition comes together and where many of our Members are headquartered. In the current divided political climate, InterAction has increased awareness of the urgent call to promote anti-racism and racial equity here at home, where it impacts the lives of many of our staff, Member organizations, partners, and the community. As race and social justice remain principal concerns in the U.S., InterAction will continue to be a leader and ally standing against bigotry and racial violence that exist in our country.

Our coalition has a responsibility to maintain a culture of inclusion for its employees and the communities it serves worldwide. It is not always easy or comfortable to engage in DEI work, but InterAction can attest to the value of intentionally prioritizing and incorporating DEI principles. As an organization responsible to our own staff, InterAction elevated DEI through its staffing structure and hired a third-party consultant to benchmark staff diversity, conduct focus groups, and provide the organization with a detailed DEI Assessment Report. We are better for having gone through this intensive process and commit to continuing our internal work as a leader and an example for the sector.

Organization Description
In its simplest terms, our mission is to build software to help people make important things work better, whether it’s the quality of an aircraft engine or the waiting time to see a doctor. The practice of process improvement touches all our lives in very direct ways, so if we can use technology to accelerate that work, we’re all better off for the effort.

Diversity & Inclusion Philosophy/ Statement
At MoreSteam, we believe in "rowing" together. When we work together like that, leveraging our unique experiences, strengths, and contributions, we succeed and innovate more quickly. Diversity and inclusion are at the heart of who we are and how we work both inside and outside of the walls of our organization.

Diversity Programming & Initiatives
At MoreSteam, we recognize that women and minorities are very underrepresented in computer science majors, so the traditional hiring path for programmers is not enough to develop a diverse workforce. We rely on non-traditional forms of recruiting, including relationships with local coding bootcamps that focus and champion social equity in technology. We also work to develop each of our own staff through our mentorship and coaching programs. More than half of our development staff and leadership team are women, many of whom moved from other departments or were cross-trained internally. We strive to build and nurture a culture where inclusiveness is not an initiative, but is just a part of who we are and how we treat each other.

As the preeminent international service organization of the United States, the Peace Corps sends Americans abroad to tackle the most pressing needs of people around the world, working at the grassroots level with local governments, schools, communities, and small businesses to develop sustainable solutions that address challenges in education, health, economic development, agriculture, environment and youth development.

Diversity & Inclusion Philosophy/Statement
The Peace Corps seeks to reflect the rich diversity of the U.S. and bring those perspectives and solutions to development issues in the countries we serve. We also seek to create inclusion—a culture that connects each staff and Volunteers to the organization; encourages collaboration, flexibility, and fairness; and leverages diversity throughout the organization so that all individuals are able to participate and contribute to their full potential—throughout the Volunteer and staff lifecycle.

Diversity Programming & Initiatives
Our Intercultural Competence, Diversity and Inclusion team uses the “Self-Other-Bridge” model, in which learners begin by reflecting upon their own identities and experiences, learn about a variety of identities and experiences that differ from their own, and then practice bridging skills to engage those differences. Once Volunteers arrive at their sites, diversity and inclusion principles remain the same but take on a different shape, in which your host community may share a common culture and you—the Volunteer—are the outsider. You may be in the minority, if not the sole American like you, at your site. You will begin to notice diversity in perspectives, ethnicity, age, depth of conversation, and degree of support you may receive—and may need to make adjustments. During pre-service training, sessions will be held to discuss diversity and inclusion and how you can transcend differences, find common ground, and serve as an ally for your peers.

Prudential's commitment to equity dates back to our founding in 1875 to provide insurance to the working poor. Our company was forged by the principle of equity—that financial security should be within reach for everyone. While our customers and communities have changed in the 145 years since then, we remain committed to our founding principle of making financial health accessible to all. It’s the purpose that underlies everything we do: making lives better by solving the financial challenges of a changing world.

Diversity & Inclusion Philosophy/Statement

We have a long-standing commitment to diversity in our workplace and marketplace. Prudential seeks talented, creative individuals from a variety of backgrounds, worldviews and life circumstances. It is our priority that our workplace be inclusive, welcoming of new ideas and appreciative of valuable experience. Our business strategies fully consider, respect and reach out to diverse consumers and communities. Our goal is to partner with them to meet their current needs, support their dreams and build their futures.

Diversity Programming & Initiatives

Prudential has a variety of inclusion and diversity-based employee programs. Our biggest and farthest-reaching are our 8 Business Resource Groups (BRGs). These employee-led, diversity-focused groups are comprised of nearly 6,000 employees. With the goal of sponsoring high-potential women of color, with advancement and mobility in mind, we’ve partnered with an external vendor who offers training through their professional development leadership program. The program offers eight months of virtual learning, including monthly discussions on leadership skills, coaching, and exercises and assignments that challenge and inspire. Prudential launched inclusion training this year to provide associates with tools to explore the role that our personal identity has on our worldview and expectations in the workplace, and deepen knowledge about addressing the topic of race and having a meaningful dialogue in the corporate setting.

Inclusive Practices and Policies: Diversity is challenging because it highlights what makes us all unique. To make it work we must hardwire it through policies and practices. Policies are cultural symbols, and so D&I needs to be hard-wired in policies and practices. For example, our Global Family Leave policy launched in 2018 allows everyone to manage their unique life and work by providing time off for occasions that matter the most. Since its launch, 59 Schneider Electric countries have implemented it covering 75% of our employees. Other examples include – Framework to establish workplace gender equity – by the end-2018, 92% of Schneider Electric employees have been covered under pay equity process, and there are worldwide regions where actions plans are already complete. I believe that pay equity doesn’t really require a business case, as it’s simply the right thing to do. Flexibility @ work – to make the multi-hub model work, we realized that a complete re-think on the very concept of flexibility would be essential. For us, flexibility is much more than just choosing hours of work, it means a culture of smart working, including workplace flexibility; working time flexibility; and a flexible/inclusive working environment.

Diversity Programming & Initiatives
The Year 2020 marked a pivotal moment for the nation on the issue of racial injustice. Stellar Solutions joined in this movement for change in a number of ways:
- We engaged employees with open dialogue on these sensitive and important topics, including briefings, memos and updates to corporate policies and documentation.
- We invited the workforce to get involved with a newly instituted Diversity & Inclusion Team. The team demonstrates diversity in its membership, and includes representation from employees at all levels within the organization including C-Level and senior directors. The Diversity and Inclusion Team is a volunteer group within the company and is open to everyone.
- Another effort was a first-of-its-kind video shared with the entire workforce that contained a powerful message and put together by our own Stellar people. The message and video shared with Stellar employees is that each of them is part of Diversity & Inclusion, and that we are all one as a company.

As a HubZone certified business, Trek 10 has always had a strong belief in diversity and inclusion, and why it is so essential to building a lasting and successful company. We work closely with the Society of Women Engineers to build a strong relationship there by offering up our time to conduct mock interviews for the students as they prepared for the career fair. We also work closely with the City of South Bend to help bring training to those in underdeveloped areas of town in the hopes of getting them the skills they would need to gain employment. Our efforts in reaching out to groups who may not know much about us has greatly helped shape the landscape of diversity within Trek10. This summer’s internship program is continuing that trend, with the hope that hiring momentum can return later this year.

We proudly recruit international students with CPT or OPT work permissions as well.
