DEVELOPMENT

The image shows a sequence of five steps to customize a LinkedIn profile URL on a mobile app. Step 1: The user is on the Home screen, and the profile circle in the top right navigation bar is highlighted with a red dashed box and the number 1. Step 2: The user taps the profile circle, and the "View Profile" button in the resulting menu is highlighted with a red dashed box and the number 2. Step 3: The user is on their profile page, and the "Public profile & URL" section is highlighted with a red dashed box and the number 3. Step 4: The user taps the edit icon (pencil) next to the current URL, and the edit icon is highlighted with a red dashed box and the number 4. Step 5: The "Edit your custom URL" dialog box is shown, and the "Save" button is highlighted with a red dashed box and the number 5. The current URL "www.linkedin.com/in/edsorin" is also highlighted with a red dashed box. The dialog box includes a note: "Note: Your custom URL must contain 3-100 letters or numbers. Please do not use spaces, symbols, or special characters." and buttons for "Cancel" and "Save".

1. Click on your **profile circle**.
2. Select **View Profile**.
3. Click the **edit icon**.
4. Click the **edit icon**.
5. **Customize** your profile URL and click Save.
